

BAX.
GET THE JOB DONE.

BAX. **GET THE JOB DONE.**

The new BAX is a partner that you can rely on in any situation: strong as an ox, completely reliable and emission-free at the same time. The BAX is a mobile tool that makes your job easier. It can manage more, has a longer range, charges faster, is networked, saves you energy, provides more safety and has numerous body types and variants for use. This way, you and the BAX can master all of the daily challenges you face inside and outside the city.

**BAX. THE FIRST ELECTRIC TRUCK
THAT REALLY GETS THE JOB DONE.**

3 t

BAX. MANAGES MORE.

The new BAX lets you load more! While conventional trucks with a diesel engine, gearbox, power train and emission control make the cab large and heavy, your new BAX comes with significantly more payload capacity, despite running on a battery. The BAX 7.5 can easily manage three tons with a superstructure! This makes the BAX perfectly equipped for your job and it does exactly what it is supposed to: transport goods.

[More information](#)

200 km

BAX. LONGER RANGE.

The new BAX can take you the extra mile. Quite literally. Although it was originally designed for inner-city use, the long-range version with a battery capacity of 126 kWh can do a sensational 200 kilometres.* The BAX is 80% charged in just 60 minutes (at 100 kW DC) and ready for your next job.

More information

*Depending on intended use and driving style – the ranges were evaluated in real test conditions in battery-depleting winter temperatures.

BAX. THE FITTING TRUCK FOR EVERY APPLICATION.

The BAX is available in numerous body types. It doesn't matter if it's a cherry picker, ambulance, fire engine, or delivery, towing, road-sweeping or rubbish-collection vehicle, you and the BAX can master every role. Its compatible chassis means your BAX can be used according to your requirements and can be upgraded to a customised piece of working equipment by the superstructure specialist of your choice. No matter what you're planning to use it for, the BAX gets the job done.

BAX. SAVES ENERGY.

The new BAX makes your job easier. Your job is already hard enough, after all. Constantly climbing up into the cab shouldn't cause you extra stress and strain. With its low access height, the BAX won't make you tired as quickly after repeatedly getting in and out of the truck, and is good for your health as a result. That way, transporting is a lot of fun, too.

More information

BAX. MAKING SURE THINGS ARE SAFE.

The new BAX gives you a better overview. For the safety of other road users and your own, too. While out transporting in the city, sitting in your electric BAX puts you at eye level with the other road users, even with pedestrians, cyclists and motorcyclists. With its extensive assistance systems as well as its safety and comfort features, the electric BAX always completely plays it safe.

More information

BAX. IS NETWORKED.

SERVICE STATUS MESSAGES

Important service status messages for your BAX such as brake failures or the status of the airbag are displayed to you and your administrative colleagues in real time.

INFORMATION DISPLAY

With the integrated BAX telematics, you can see the average consumption, range, charging capacity and much more in real time.

GPS INFORMATION

The core of the BAX telematics is the GPS tracking system. You can check the location of every BAX in your fleet any time and generate optimised routes in real time.

VEHICLE AND FLEET REPORTS

Your BAX generates automated reports using all relevant vehicle data, so that you have the development of your fleet fully automated and under control at all times.

VEHICLE VISUALISATION

With the BAX vehicle visualisation, you can individually display each e-truck in your fleet so you can also keep track of everything online, which is especially useful for large fleets of vehicles.

ADVANCED SERVICE

The BAX lets you access your vehicle's fault recorder from anywhere and reduces workshop visits and downtimes many times over as a result.

service

The BAX won't fail you any time soon. However, if you do need help whilst on the road, as a BAX customer you benefit from the BPW Group's extensive experience in servicing and vehicle maintenance as well as organising a service network. With an ever-increasing number of registrations, the BAX service is being continuously enhanced with further service points.
